

Monday 7:00-9:10pm GPSA507 Human Development: Through the Lifespan from Birth to Death / Team Teach (Main)

This course focuses on the vicissitudes of human development through the lifespan and within intra psychic, biological, family, environmental and cultural context. How the individual approaches developmental tasks or copes with challenges of inner and outer reality, from conception through old age, is reflected in his/her sense of self and is manifested in behavior and life choices. The maturational tasks of adapting and coping that enable growth over the lifespan are examined. (3-cr)

Wednesday 4:50-7:00pm GPSA851 Winnicott Reading Course: Contemporary Topics in Clinical Practices / Vaccaro (Vaccaro Office)

This course will explore contemporary topics in clinical practice. Class members discuss topics related to mental health practice from contemporary life, highlighting new, innovative or relevant issues. Students become active researchers, bridging the gap between theory, research and practice through researching literature to serve as a springboard to exploring aspects of practice. Students can develop self-efficacy by discovering resources that reflect a personal model of practice. The course discussion applies the literature to clinical practice. This course will focus on the readings of D.W. Winnicott and application to contemporary practice. (3-cr)
